Pictograms

Eye/face protection

Not normally required for consumer use when used as directed.

When handling in bulk quantities: Tightly fitting safety goggles. If splash hazard, wear face shield (8-inch minimum). Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin protection

Not normally required for consumer use when used as directed.

When handling in bulk quantities: Wear protective gloves. Consult manufacturer specifications for further information.

Body protection

Not normally required for consumer use when used as directed.

When handling in bulk quantities: Wear protective clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection

Not normally required for consumer use when used as directed.

When handling in bulk quantities: Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).
